Local and General

Do not forget to subscribe to the Bow Island Review, more new features are added every week to interest you. Keep up with the times, by knowing what all the "real live folk" around you are doing.

All changes of Advertisements must be in the "Review office" Tuesday morning to appear the same week.

We notice that the Municipal District is making a good move in ordering all weeds destroyed before June 1st. It is unnecessary to point out the damage which will result if Russian Thistles in particular are allowed to blow about and settle in the growing crops.

The A. P. M. J. Bradner, left last Wednesday for Kindersley, Sask. attending a Court Case.

Mrs. Clem Hoaglin, is leaving next Monday for Salt Lake City, Utah, to spend the summer months there for a holiday.

Dr. Munro and sister left on Monday for Calgary to stay with his sister and also to get medical attention for blood poison.

The Women's Institute will have a meeting next Saturday at 2:30 p.m. and the report of Convention that was held at Calgary will be given and refreshments will be served.

R. B. Lusk of Foremost came to town last Monday returning Wednesday.

Rev. and Mrs. Gilbert were out calling in Fairlight district last week.

Ed. Thompson and wife were in town Wednesday.

James Munro who works for the Gas Co. at Barnwell spent Tuesday at home.

Mrs. Ray expects her son, who has been overseas, home shortly.

Corporal Robert Sims, of the United States Army, was a visitor to Bow Island last Wednesday. He is on a visit with friends at Pleasant View. He comes fresh from France with the "hail of heroes" thick upon him. As his string of medals testify, Hurrah for Old Glory, it takes a powerful lot to beat it.

Irrigation will soon be in our midst, one of our up to date and pioneer farmers of the district. Mr. Nathan Walwork has decided to no more put his seed in the ground, trusting to the elements of Nature; but has bought a Centrifugal Irrigation 12 inch suction Pump, delivering approximately 250,000 gallons per hour. Mr. Walwork is going to irrigate 100 acres, and if successful will put more land under irrigation.

The above pump was sold by A. E. Tunstall, City Service Garage, agent for Canadian Fairbanks Morse Co. who carry a line of everything a man needs, whether it's a Tractor, Repetitor, Windmill, or an engine of any description.

CARD OF THANKS.

We wish to thank our many friends and neighbors for the sympathy and kindness shown us during Claude's sickness, and for the beautiful flowers which helped to cheer.

S. G. Jamieson and family.

Bow Island

Does Advertising Pay at all Times?

Yes, even in dull times, when some of the merchants think that there is no money around at all. There is always a flow of money coming into the Treasury of the really wide-awake far-seeing Business man, who has enough Confidence in the merits and Values of his well asserted stock to "Advertise it" and thus gains the confidence of the Public, who then stream in to Buy.

If a Merchant has not enough Confidence in his own stock to Advertise it, he is in a bad way. He is exposing the Public to have enough Confidence to buy from him, except in the merest drabs and dribbles. Some do not even know that the Merchant is alive.

But Bow Island is fortunate in having some real Business men, as was proved by the cash of eager Buyers to the "Hexall One Cent Sale" at the Bow Island Drug Store of which Mr. Blaine is Manager and Mr. McElroy his skilled right hand man. The Store was attractively arranged and packed with the choicest stock that it was possible to buy from all quarters of the British Empire, and the Bargains were such genuine Money Savers that people from far and near are asking, when the next Sale is going to be.

And the Public that crowded the Hexall Sale where only got there by the skillful Advertising put in the Bow Island Review, which is read Every Week by 1000 to 1500 people, had something for the Merchants here to ponder over.

Money talks - so does Advertising.

Mr. A. J. Bergeron is leaving on Saturday the 17th. for Rochester, Minnesota, for medical treatment.

FOR SERVICE

Percheron Stallion Andy will stand for service on Monday and Tuesday at Martin Johnson's South of Burdett; and on Wednesday, Thursday, Friday and Saturday at N. F. Edlund's Barns half mile South of Burdett.

SAY YOU SAW IT IN THE REVIEW

Bad accident at Alderson.

On Thursday Mrs. John Siddle wife of a C.P.R. section foreman, met with a serious accident when she nearly severed her left hand at the wrist by cutting it with a sharp butcher knife. The meat she was cutting was hanging up, and it slipped in some unknown way. She suffered considerable loss of blood before help came, and at present is very weak she was hastened by car to Medicine Hat.

A Fire At Carmangay.

Walker's livery barn, owned by Lyckman, was totally destroyed by fire Wednesday night. The property was only partly insured. A valuable mare the property of Charles Griffin was lost in the conflagration. An east wind endangered the elevators along track, but the good work of the fire brigade averted the danger.

Mr. A. J. Bergeron this week sold his Blacksmithing business to Mr. Andrew Zeniak lately of Taber Alta.

Correspondents Wanted.

Correspondents are wanted to represent the Bow Island Review in the following districts: - Winnifred, Winton, Grassy Lake, Foremost and Maple.

Huns Will Now Face the inevitable

Berlin.—Official quarters in Berlin have learned the probable terms of peace and a lengthy session of the cabinet followed in the afternoon, the action which Germany is to take was discussed. It was considered in some quarters that Count von Brockdorff-Rantzau would resign to sign the peace treaty and resign, but the opinion is general that Germany must accept, since she is helpless.

The resignation of the foreign minister would only delay a settlement of the question, for, if his cabinet left office with him, independent of it, he believed, would fairly take up their positions and their first act would be to complete the terms.

The first newspaper in Berlin to publish the forecast headed it, "Germany's end as a great power."

The Tagblatt says the size of the German army can only be decided by the league of nations and that it will be impossible to pay £1,000,000,000 indemnity. The newspaper calls the decision regarding the Saar "hardly disguised annexation," and says that it cannot be accepted.

The Dusseldorf solution is declared to be unacceptable. The decision as to Germany's former colonies is arousing protests.

The National Zeitung publishes what it terms the official standpoint the government expects to take regarding the peace terms.

The government, according to the newspaper, will refuse to sign any part of the treaty which provides for "Occupation of Germany." For instance, the extent's standpoint regarding Danzig and the Saar Valley will not be acceptable. The German delegates, however, will make every effort to institute negotiations on these and other unacceptable demands.

Clause Stipulates Kaiser's Trial

Paris.—The clause regarding responsibility, which was not acted on at the previous session of the plenary conference, it is understood, has been incorporated in the final draft of the treaty. This is the clause of the trial of the former German emperor for a supreme offense against international morality and the sanctity of treaties, by a tribunal composed of representatives of Great Britain, the United States, France, Italy, and Japan.

Germania Would Massacre Jews London.—An Exchange Telegraph company dispatch from Berlin reported that hatred against the Jews has been displayed recently in the German capital and that all Jews have been distributed, asking the citizens to massacre Jews because, the police assert, the Jews killed 200 children at Easter.

End of Germany As a Military Power

Versailles.—Today the allied terms of peace were handed to the German delegates. The document, long as it is, is shorter than was indicated by the forecast, which estimated its length at 10,000 words. The treaty is not printed in German. The text is in French and English, on opposite pages.

The terms of the treaty spell the end of Germany as a military power. She is deprived of what all nations prize, her army is cut down to nominal dimensions, and she is sharply restricted along lines which she might seek to work militarily and rehabilitate herself. Economically, also, the future of Germany is hedged about with stipulations intended to insure her ability to pay the indemnity demanded by the allies, and to prevent her from exploiting her old-time resources as a struggling competitor of the nations about her which she over-ran and devastated during the war.

Thus, for instance, Germany, for a period of years at least, will be deprived of the coal output of the rich Saar basin, which goes to France in repayment of the damage caused by the destruction of the French coal mines. She likewise is compelled to make reparation for the damage in other ways done to France, Belgium, and the various other countries, which suffered from Teutonic depredations in various forms. In numerous other ways she is made to realize that her more than four years' career of destruction must be made good.

Elaborate preparations were being made for the historic occasion of handing

Unrest in India

Afghan Troops and Tribesmen Cross Border and Trouble Expected

London.—Afghan tribesmen have crossed the Afghan border with the assistance of Afghan regular troops and have occupied certain positions on the Indian side of the border, according to a dispatch from the India foreign office. Military precautions have been taken by the British, who have addressed a vigorous note to the Amir.

It has been reported for some time that the new Amir had adopted an unfriendly attitude towards the British and contemplated an invasion of the northwest frontier and Khyber Pass, the principal northern pass into that country from India. No large number of tribesmen are concerned, but they have excellent knowledge of importance commanding two roads leading across the frontier.

Siberian Army Needs Clothes

Unique Plan Devised for Providing Wearing Apparel

Vladivostok.—The Siberian army needs underwear and the powers that be have devised a unique plan for providing this wearing apparel. In brief, this solution is conscription of underwear.

The male population of the city is ordered to provide the clothing on the following scale: Each man of 1,000 rubles a month must supply one set. Those who earn from 1,000 to 1,500 rubles a month are asked for two sets. From 1,500 to 2,000 rubles the rate is three sets, and from 2,000 rubles upward the rate is four sets. Owners of real estate and commercial and industrial firms have to furnish underwear on the same scale, according to the income of their business. A set of underwear consists of one shirt, one pair of pants, one pair of socks and two pairs of foot gear.

British Shift Bolsheviks Archangel.—British gunboats were active against the Bolsheviks for the first time recently. They co-operated with a strong patrol which broke through an enemy outpost north of Tulgas and destroyed dugouts and an ammunition dump.

A Bolshevik attempt against the British, United States and Russian positions at Malo Bereznicki was repulsed.

Ambassador of Reds Was Shot Copenhagen.—When Polish captured the city of Vienna recently, the former Russian Bolshevik ambassador at Berlin, according to Polish newspapers received here,

Summary of Peace Pact

Germany is deprived of her fleet.

Her army is cut to small size.

Military aspirations are pruned.

Economic restrictions are laid down so that she can pay indemnities.

She cannot strangle competition in trade.

Saar basin coal output goes to France for years.

She must resign restitution for damage to France, Belgium and other countries.

Hollands must be demolished.

Kiel Canal must be freed.

Alsace-Lorraine will be returned.

Ex-Kaiser Wilhelm will be tried.

German territories must be ceded on all hands to surrounding allied nations.

Frontier of 1917 has to be restored.

She must renounce rights to all colonies.

Dismantling of Rhine fortresses decreed.

Assume pre-war debts on ceded territory.

Allow unhindered transit in Germany.

Internationalize her rivers and give up control of the Rhine.

Germany must also pay to the limit the cost of the war to all allied nations.

Helium for Airships

Large Quantities Will Be Produced in Canada at Low Price

London.—Professor McLennan of Toronto University, was invited by the British admiralty in 1915 to investigate the possibility of large scale production of helium found in large quantities available in natural gas in Ontario and western Canada, produced at a cost of a shilling per cubic foot. The United States also co-operated and gave large orders for machinery and plants. Thus the possibility of securing large supplies of helium was assured simultaneously with the practical details of production.

Ammunition Depot Explodes

Many Killed and Country South of Brussels Devastated

Brussels.—An depot of German ammunition containing shells and bombs of every calibre and many gas shells has been exploding at the railway station at Grevelingen, a few miles south of Brussels, where Canadian troops were inspected by King Albert six days ago. The depot has been under guard of 150 Belgian soldiers, and six hundred German prisoners have been at work near it. It is believed there are many killed and wounded, but the number of victims will not be known for several days.

Many houses in the neighborhood have completely collapsed and windows and roofs for two miles around the scene of the explosion were shattered. This is especially the case at Hoeyleert and neighboring towns where there are thousands of hot houses. The movement of trains over the Namur Luxembourg line has been interrupted. It is reported that while workers were unloading a wagon filled with shells a German prisoner, setting fire to the ammunition boxes. After the explosion German prisoners broke the barbed wire cordon surrounding the camp and fled in all directions through the woods. Only 150 have been arrested since. The Belgian guards at the depot succeeded in escaping in safety. The explosions were clearly heard in Munich.

Munich Expresses Joy

Munich.—All Munich celebrated the victory over the Soviet government. The streets were crowded with people who cheered the passing troops or gave them, refreshments. Captured Spartacists were hoisted as they were escorted through the streets, hands playfully national airs outside the captured palace and the crowds sang patriotic anthems.

Germany Refuses to Pay Indemnity

Paris.—The German delegates to the peace congress declare that they will sign the peace treaty, but that Germany will not pay an indemnity. In the discussion of peace terms by Germany, through both her official and unofficial spokesmen, the French plenipotentiaries have been repeatedly drawn a distinction between reparations and indemnity, construing the latter in effect as punitive damages. It seems probable, therefore, that the refusal to pay an indemnity would mean in effect that she would decline to pay what she regarded as punitive damages.

Cheap British Automobile

London.—An English manufacturing company announces that it is prepared to put on the market an automobile that can be regarded for that purpose. It will consist of Messrs. Suez Greeneweg, deputy for Rotterdam, Vliegen and Gijgat, majorities of Amsterdam, and Broek editor of the paper Het Volk.

Went to Conference in Airplane

Paris.—Paul Hymans, the Belgian foreign minister, left Brussels in an airplane at one o'clock had reached the conference at two p.m. in time to attend the plenary session of the peace conference.

W. N. U. 1263

Government Should Aid In Exporting Grain Crop

H. W. Wood Says That Failure Would Be Crime Against People

Calgary.—Unless aid in early date adequate steps are taken by the Dominion government to assist in financing the export of the grain crop of 1919, Canada will be confronted with the greatest conceivable disaster, is the opinion of H. W. Wood, president of the United Farmers of Alberta. "If present prospects are fulfilled," said he, "the harvest of the present season will be the greatest in our history, and exactly for this reason it is our duty and it is of the utmost importance that steps should be taken to insure that it shall find an outlet.

"I can conceive of no more serious crime against the people of this country than for the authorities to fail to take the necessary steps.

"Perhaps," said he, "the government has a plan, but if so, I am certainly here to hear nothing of it, and it is of the utmost importance that the farmers should be reassured in this matter. The vital interests, not only of the farmers, but of the whole community, are bound up in agriculture."

Helium for Airships

Large Quantities Will Be Produced in Canada at Low Price

London.—Professor McLennan of Toronto University, was invited by the British admiralty in 1915 to investigate the possibility of large scale production of helium found in large quantities available in natural gas in Ontario and western Canada, produced at a cost of a shilling per cubic foot. The United States also co-operated and gave large orders for machinery and plants. Thus the possibility of securing large supplies of helium was assured simultaneously with the practical details of production.

Airships inflated with helium have been developed by the British navy and the progress made warrants the opinion that in another year large quantities of helium will be produced in Canada at a low price and helium-filled airships will be in service.

"Black Watch" The Best Black Plug Chewing Tobacco on the Market

Scheme for Tunnel Formulated in 1867

Experiences of War Have Made It Now Feasible

London.—The revived interest shown in the project of constructing a tunnel under the Straits of Dover to connect England and France was a reminder that this scheme was first formulated in 1867, and that only the experiences of the war and the increased friendship between the two countries on either side of the channel have made it nearer fulfillment. Ever since the report of the first Anglo-French committee was made on the subject, active work has been held up by the attitude of the military authorities. That opinion, according to Sir Arthur Felt, M.P., the chairman of the house of commons channel tunnel committee has now experienced a change, and from this change arises the hope of the supporters of the scheme, that the construction of the tunnel may at last be taken in hand.

Sweden's Last Year Harvest

Stockholm.—In spite of the fact that the result of last year's harvest in Sweden might be described as average compared with the harvest of other countries, the Swedish value shows a great increase for nearly all kinds of cereals and vegetables. The central bureau of statistics has estimated the total value of the harvest amounts to the large sum of 2,360,432,000 crowns, an increase of over 1,000,000,000 crowns over the average of 1913-1917, the amount then being 1,223,287,000 crowns.

Dutch Frontier Problem

Brussels.—In reply to an invitation from Belgian socialists to their Dutch comrades to proceed to Belgium capital in order to discuss the differences relating to the disposal of frontier territories, the Dutch plenipotentiaries have declined to do so for that purpose. It will consist of Messrs. Suez Greeneweg, deputy for Rotterdam, Vliegen and Gijgat, majorities of Amsterdam, and Broek editor of the paper Het Volk.

Went to Conference in Airplane

Paris.—Paul Hymans, the Belgian foreign minister, left Brussels in an airplane at one o'clock had reached the conference at two p.m. in time to attend the plenary session of the peace conference.

Austria Must Pay Large Indemnity

Japanese Fix Indemnity Claim

On Account of Destruction of Tonage During War

Washington.—Japan's claim for indemnity from Germany on account of the destruction of Japanese tonnage during the war will amount to not less than \$175,000,000, according to advices from Tokyo. The Japanese steamers actually sunk number 26, totalling 110,451 tons, and in addition, five vessels of 17,964 tons are regarded as having been sunk by German craft, although there is no conclusive proof. In the aggregate, these vessels number 31, totalling 128,415 tons. The amount of damages desired for loss of tonnage does not include personal damages due to the loss of lives.

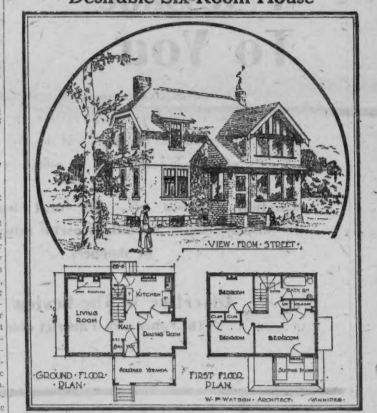

Soviets Arrest Revolutionists

London.—A wireless message from Budapest announces the execution by the revolutionary tribunal of two men and imprisonment for a long term, with hard labor, of several others, on account of planning a conspiracy on a large scale. In a public speech, the Hungarian commissary, Mr. Samuely, has described the duty of the Bolsheviks as the stirring up of revolution throughout the whole of Europe.

Small Powers Allowed

Paris.—It was decided that the following delegations which were to be excluded will be admitted to the congress at Versailles when the peace terms are handed to the German plenipotentiaries, Cuba, Guatemala, Nicaragua, Hayti, Panama, Liberia and Honduras.

Desirable Six-Room House

It is not necessary that the small, inexpensive house should be unattractive as to exterior or incomplete and inconvenient in the interior. The design shown herewith demonstrates these two facts absolutely.

A glance at the perspective and the plan suggestively thinks of an expensive home, but look at the floor plan and it will be seen that the house is only twenty-two feet by the front feet. The expense effect is due to the fact that the lines of the house are artistically good and naturally the architectural proportioning is correct.

The large living room with its open fireplace is laid out so that furniture may be placed to display itself to advantage.

Notice may well be drawn to the secluded screened verandah and the sleeping balcony. Height is obtained by the straight line of the steps from the room floor level to the floor of the balcony. The design is an altogether to be desired small home.

Brief Speech Which Attended Peace Terms

Versailles.—In opening the session of the peace conference, M. Clemenceau, presiding officer, speaking to the Germans, said: "It is unnecessary to express needless words. You have before you the plenipotentiaries of the small and great powers united. In the most cruel war, which was imposed upon them, the hour has arrived for a heavy settlement of the account."

Paul Du Bois, secretary-general of the peace conference, delivered a copy of the treaty to Count von Brockdorff-Rantzau, head of the German delegation, who made a brief reply.

New York.—The Associated Press Issues the following:

While the German peace plenipotentiaries are digesting the text of the league of peace treaty handed them, and communicating with the Weimar government as to the demands made upon Germany by the allied and associated powers, the council of four is engaging itself with the formulation of peace terms for Austria and Hungary.

The German Austrian delegation is reported already to have started for St. Germain, France, there to await the summons to Versailles to learn what is to befall the one-time dual monarchy in the way of the payment of indemnities, the making of reparations and the relinquishment of territory.

Estimates have been made in Paris that five billion crowns will be demanded as indemnity from Austria-Hungary, in addition to the determination of the former. The pre-war debt of the former empire and kingdom, it is stated, is to be divided among the newly formed states which have arisen, or are to arise in their old territories.

It is reported that when the terms of peace with Turkey are concluded, the United States is to be requested to become the mandatory of Armenia, and that President Wilson will place the matter before congress in order that a decision may be arrived at.

Chinese Objections

Peking.—The Chinese cabinet, at a meeting decided to instruct the Chinese delegates attending the peace conference to sign no treaty assuming the German rights in Shantung to the Japanese.

Bow Island Board of Trade

Bow Island, Alta. May 12th, 1919.

The meeting was called to order by the president, R. N. Beattie. Minutes of the last meeting read and adopted, account was read from L.O.O.F. Hall rented from Jan. 1st, 1919 To May 12th, and from Bow Island Review for \$6.00. Motion by Dr. Peterson seconded by Allen that bills as read be paid. Dr. Peterson then spoke on the R.R. running from Coats to Medicine Hat and thought the Board of Trade should try and have this survey through Bow Island after several members had spoken on the subject it was moved by Peterson seconded by Swenson that the secretary write the proper authorities. Motion by Swenson that the secretary write the L.O.O.F., stating the need of a light at the foot of the stairs of the Hall, seconded and carried.

Mr. Blaine took up the question of the Chalmers doing business at all hours, and spoke on the stores closing Wednesday afternoon, opening Wednesday evening, after a general discussion, the following committee was appointed to interview the merchants committee. Rev. Gilbert, Jas. Swenson spoke on the conditions of the river crossing and hill. F. Henderson was asked to take the matter up with the Municipality. Motion by Blaine seconded by Allen that any organization such as Boy Scouts Camp Fire Girls, G.N.Y., U.C.F. A. Red Cross, be granted "booth room" free on May 24th. applications to be in the hands of the committee, by May 21st. All others such as gangs to be charged a fee of \$10.00. Carried. Motion by Hunt seconded by Peterson that the sidewalk crossing be repaired the president asked Mr. Bratten to look after same. Carried. Committee, on race track, reported they considered it would cost too much this year to have a race track in the park, it was decided to leave same until some future time.

The secretary was instructed to write to Edmonton again for an answer to his letter of last March. Re. Upkeep of the Bank road leading into Bow Island. Meeting then adjourned.

Board of Trade meet every Second Monday in each month.
